310-595-8653 | Bodwell@utexas.edu | Austin, TX
<https://linkedin.com/in/tomibodwellmamic> | <https://github.com/XSS3cut10n3r>

Summary

Applied Cybersecurity student with comprehensive expertise spanning network security, cryptography, threat analysis, and secure systems design. Proven technical skills across penetration testing, digital forensics, and incident response, with hands-on experience implementing security controls and encryption protocols. Proficient in Python, C, and assembly. Passionate about securing critical infrastructure and advancing privacy-enhancing technologies.

Education and Certifications

SANS Technology Institute, North Bethesda, MD
Bachelor of Science, Applied Cybersecurity [GPA: 4.0]

Expected Graduation: December 2026

The University of Texas at Austin, Austin, TX

August 2023 - February 2025

- GPA 4.0 - University Honors

Santa Monica College, Santa Monica, CA

August 2022 - June 2023

- GPA 4.0 - Highest honors

GIAC Certifications: GIAC Foundational Cybersecurity Technologies (GFACT), GIAC Security Essentials (GSEC)

Projects and Engagements

Fireplace - Open-Source Chat Application

- Currently developing a real-time iOS/Android chat app with Flutter (Dart) and Firebase backend.
- Implemented OAuth 2.0 authentication; working towards end-to-end encryption using AES-256-GCM with ECDH key exchange.

NSA Codebreaker Challenge 2025

- Solved all 7 tasks spanning the full cyber kill chain with 89 days remaining.
- Developed and executed a multi-stage Android exploitation payload leveraging path traversal, arbitrary file overwrite, and malicious DEX injection to achieve remote shell access, validating the full attack chain in a controlled environment prior to deployment (Task 7).

National Cyber League (NCL) Spring 2025

- Placed 13th out of 8,575 in the individual contest and 14th out of 4,779 in the team contest across diverse cybersecurity challenges.
- Completed all web application exploitation challenges and cryptography challenges for our team.

Skills

Technical: Networking, Web protocols, SQL, Encryption, Assembly, Cryptography, Cloud security, Digital forensics, Threat detection, Incident response, Security frameworks, Defense-in-depth, Memory analysis, Password attacks, Malware investigations, Log analysis

Programming/Scripting: Python, C, Bash, SQL, PowerShell, Git, Metasploit, Netcat, Nmap, DeepBlueCLI

Hardware/OS: Linux, Windows, macOS, Computer hardware, Computer architecture, Active Directory, Containers, Virtualization, Linux/Windows forensics, Cloud platforms

Work Experience

College Houses, Austin, TX

Labor Operations Manager

January 2024 - Present

- Created a work schedule for 61 residents.
- Addressed missed shifts and policy violations through one-on-one conversations, balancing accountability with empathy.
- Trained new residents on expectations and responsibilities, answering questions and providing ongoing support.

Director + Board Representative

May 2024 - August 2024

- Collaborated with executive board members to make policy and budget decisions affecting hundreds of residents across all of the houses in the organization.
- Coordinated between labor, finance, and facilities teams to resolve conflicts and streamline workflows.
- Gathered feedback from residents and advocated for their needs in board meetings.

UT RecSports, Austin, TX

January 2024 - January 2025

Lifeguard

- Worked as part of a lifeguard team to ensure coordinated pool coverage and respond to incidents.
- Communicated safety rules to diverse patron groups, adapting approach based on age and situation.
- Maintained CPR, AED, and First Aid certifications while participating in regular emergency response drills.

Research at UT Austin

Childebayeva Lab, High-Altitude Adaptation study: Worked with Professor Childebayeva to identify genetic selection trends across thousand-year intervals using R.

Intro to Microbiology, Antibiotic Discovery study: Researched the impact of prescribed fires on soil microbiomes, identifying antibiotic-producing bacteria. One of two students who presented their findings in a poster presentation at the Tiny Earth Symposium at the University of Wisconsin-Madison.

Honors and Awards

- SANS Institute Scholarship, October 2025 - *A \$4,500 scholarship awarded for completing all 7 tasks in the NSA Codebreaker 2025.*
- SANS Institute Scholarship, April 2025 - *A \$4,500 scholarship awarded for being a member of one of the top 3 SANS Technology Institute teams in the National Cyber League, a capture the flag (CTF) contest. Completed all web app exploitation and cryptography challenges for the team.*
- Santa Monica College Highest Honors, June 2023 - *Awarded for attaining a cumulative GPA of 4.0.*
- Duke of Edinburgh Bronze Award, June 2019 - *Awarded for volunteering, physical exercise, and practical skills.*
